Subject: Application for Internship

To Mr.Mastouri

I am writing to express my keen interest in joining your company for a summer internship. As a passionate DevOps and Agile enthusiast, I was particularly interested in the "**Imagine Platform**" project of the **RIDE** organization. The innovative approach and dedication demonstrated by RIDE's leaders in promoting applied research in an agile and Devops have truly caught my attention. Joining your company for a summer internship would provide me with the opportunity to share my skills and knowledge while gaining valuable experience in the field of software development.

Currently, I am a second-year student pursuing a degree in Software Engineering at the National School of Computer Science and Systems Analysis (ENSIAS). Through my strong academic background and practical projects, I have acquired a solid understanding of fundamental software development principles, programming languages. In addition to my technical competencies, I am a curious, motivated, and eager learner. I have the ability to quickly adapt to new technologies and work both independently and collaboratively in a team. I am confident that my passion for software development and solid knowledge base will allow me to make a significant contribution to your company.

An internship at your organization would provide me with an exceptional opportunity to apply my knowledge and develop my skills in a stimulating professional environment. I am convinced that this experience would deepen my understanding of best software development practices, strengthen my problem-solving abilities, and allow me to work alongside experienced professionals.

I would be honored to contribute to your projects and learn from your talented team. I would be delighted to discuss my application and the internship opportunity in more detail during an interview. Thank you sincerely for considering my application, and I hope to have the opportunity to demonstrate my motivation and skills.

Please find attached my CV for further information about my academic background and experiences. I am available to provide any additional information you may require. Thank you for your attention, and I look forward to hearing from you.
